# Where Vision Meets Experience

Piddingtons Funeral Home, where over 120 years of funeral service excellence meets 21st century innovation. As fifth-generation Funeral Directors in Armidale & New England, we take pride in our unrivaled service. From pioneering the first motorised hearse in NSW in 1914 to leading with cutting-edge audio and visual technology today, we seamlessly blend tradition, respect and innovation for a compassionate, immersive experience.

We offer a range of audio-visual services to make memorable services. Our audio-visual services include music, photo presentations, livestream and recording facilities. These facilities are available in our Chapel and abroad, in most venues throughout the New England region.

## Livestream Service

Overcoming location and time constraints, our Livestream service ensures that family and friends can participate in any service, regardless of their circumstances. Livestreams are accessible from our website for download, future viewing and memorial purposes, with optional password encryption for exclusive family access. Our high-definition (1080p) recordings, captured with top-quality equipment, guarantee a meaningful and lasting experience.

## Musical Tributes

Navigating the choice of music to honor your loved one may initially pose a challenge, but once your decision is made, we excel at sourcing nearly any selection. While most churches accommodate music, for those that don't, we'll use our portable PA systems. We also use our PA system during committal/graveside services. In our Chapel, experience the richness of a cutting-edge surround speaker system, complemented by the option to bring your own musical (up to 10) instruments. At your request, we can also engage organists, soloists or bagpipers to add a special touch to the service.

## Photo Presentations

Creating a heartfelt photo presentation adds a personal touch to your loved one's funeral service. It's a meaningful tribute during the service and a keepsake for the future. We'll elegantly arrange your photos into a professional presentation displayed on our large Full HD LCD televisions. Whether you provide digital or physical copies, we'll arrange them into a fitting tribute, customised to fit your preferences. Consider purchasing a USB for convenient viewing anytime, anywhere after the service.

## How Do I Access a Livestream?

Depending on your device, use a web browser connected to the internet to navigate to our website [www.piddingtons.com.au](http://www.piddingtons.com.au) and select the "Livestream" tab, or select "Death & Funeral Notices" as seen below. Then you can either search for a previous livestream by name or select an upcoming stream. Please note that any upcoming streams display in your local time for your convenience. You'll be able to view the service sheet to follow along with the service as well.

## Our Facilities

Music can be a huge part of people's lives & our chapel offers facilities to accommodate a musically themed service. Up to ten musical instruments can be wired into our music system, so even with the biggest service everyone can hear.

## Large Services

Our elegant chapel accommodates up to 120 guests, with the flexibility to add extra chairs in the condolence lounge and under the awning if needed (up to 400+ people). Equipped with an advanced sound system and multiple televisions, our venue ensures that everyone feels fully engaged in the service.

# for family.

Losing someone is hard.

For the extended family of relatives, loved ones, friends and colleagues, it's a deeply personal and often overwhelming experience. At Piddingtons, we support you and your family, as we have across the New England community since 1899.
