Crafted with Care, Chosen with Love

At Piddington's Funeral Home & Crematorium, we provide a thoughtful selection of coffins and caskets to meet a variety of styles, colors, and budgets, ensuring every family can find the right choice during this difficult time. As a fifth generation family business with 120 years of experience, we pride ourselves on being a trusted part of our community.

We offer Australian-made coffins and caskets, crafted from ethically sourced timbers and eco-friendly materials, reflecting our commitment to sustainability. Our range caters to both traditional and contemporary preferences, including options that honour the rich heritage of our Aboriginal families.

This brochure showcases our collection, but if you don't find what you're looking for, our dedicated staff are here to help. We are with you every step of the way to ensure you find or customise the perfect option for your loved one.

Explore our range on the following pages, and let us assist you in making a choice that truly honours and reflects the life of your loved one.

Caring for the Environment

Our suppliers maintain the highest quality standard of respecting the environment and use sustainable materials from ethical sources where available.

MDF, Veneers or Solid Timbers

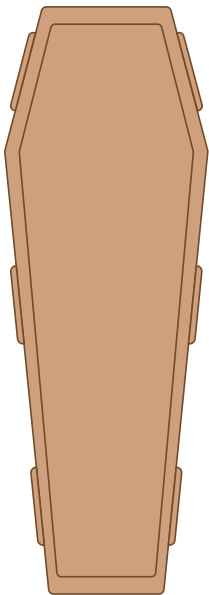

Medium-density fibreboard (MDF) is an engineered wood product made by breaking down hard/softwoods and combining them with a resin binder. **Veneers** (paper or wood) refer to thin slices of material are glued onto MDF. **Solid wood** is just that, beautiful handcrafted solid wood coffins or caskets.

Cardboard or MDF

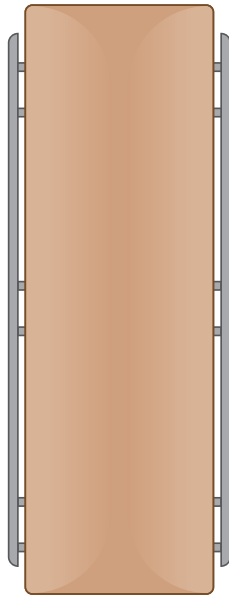

Are cardboard coffins really environmentally friendly? In reality cardboard coffins have a more significant carbon footprint than you may think. Energy, water and a cocktail of chemicals have to be mixed with cardboard to make it strong enough to be used as a coffin. Plus the cost may be more than you would pay for a solid plantation timber coffin.

Casket or Coffin

Coffin

Casket

Understanding the difference between a coffin and a casket can help guide your choice.

A coffin is tapered at the shoulder with a removable lid, offering a timeless design. In contrast, a casket is rectangular with a hinged lid, providing an elegant touch.

Both are available in various finishes in a range of sizes, during your arrangement meeting, the options of what colourway, hardware and mounts will be discussed and chosen.

Within this brochure, prices are for standard sizes. Larger coffin and caskets increase in price.

Coffin Hardware

Piddingtons offer two handle packages, standard or premium mounts in various colourways.

Our standard range incorporates plastic moulded mounts in either silver or gold. Our premium range consists of non-combustible metal and wood bars to match the timber colour. Additionally, matching lid screw and escutcheon plates will be chosen to match your choices.

Not all caskets require handles, usually if no pall bearers are required, or if the coffin is not being transported, the casket will not be mounted with handles.

MDF & Paper Veneer Coffins

The paper veneer coffin range is characterised by simpler designs and finishes. A thin sheet of paper, printed with a wood effect, is glued to an MDF substrate to create a simulated timber look which can be lacquered, painted or left unpolished.

Pineboard

A particleboard (MDF) coffin with a flat lid and finished with traditional edging that completes this contemporary option.
